

**Assistant City Traffic Engineer**  
**Hiring Range: \$59,786- \$90,976 DOE**

*Work in one of the fastest growing cities in the Greater Phoenix area where quality customer service is at the heart of everything we do. Experience an atmosphere where employees are respected and appreciated; an environment that encourages progressive ideas and appreciates individual thinking within a team-oriented culture.*

The City of Goodyear is looking to fill the position of Assistant City Traffic Engineer. The position will plan, perform difficult and advanced traffic engineering work. Supervision is exercised over professional and paraprofessional personnel in planning, designing, collecting and analyzing data and information on traffic engineering projects. Work is characterized by the requirement for performance of very difficult and exacting assignments. Work involves the application of professional traffic engineering knowledge and skills to a variety of engineering functions. The ideal candidate will have a minimum of three (3) years experience in traffic engineering. In addition, he/she will have the ability to evaluate customer satisfaction, develop cooperative associations and utilize resources to continuously improve customer service. Must possess excellent interpersonal/human relations skills.

Position requires a valid driver's license and three (3) years experience in traffic engineering or a related field. Work requires professional level of knowledge of a discipline equivalent to that which is acquired in a Masters degree-level of study, though equivalent experience may be substitute for education. Registration as a Civil Engineer and/or Professional Engineer in Arizona (PE) is required to obtain within one year of hire. Please visit our website for more details at [www.goodyearaz.gov](http://www.goodyearaz.gov). The position is open until filled. EEO/M/F/V/H/D
